[Click here](#) for a complete list of all the new numbers available and the applications they fit.

OE Replacement

- Up to 20% stronger than OEM
- Chrome steel solid center shaft
- High performance moly grease
- High quality Neoprene rubber dust boots for improved flexibility
- Work at varying angles and constant rotational speeds without friction or play

Heavy Duty

- Up to 35% stronger than OEM
- Chromoly steel solid center shaft
- Premium heavy duty, high temp moly grease
- TPE (Thermoplastic Elastomer) dust boots provide superior tear and puncture resistance
- Greater durability and smoother performance under severe operating conditions
