New Replacement Window Regulators Represent a Significant Sales Opportunity

- Currently there are over 800* million automotive windows with regulators on the road today. With a failure rate of .96%*, that equates to over 8,830,600* potential window regulator sales. This represents a great sales opportunity for you!
- Additionally, through extensive engineering research and design, we can provide more coverage with fewer sku's than our competition. That means a better R.O.I. opportunity for you. **Source: IHS/Polk Market Data*
