

# TrakMotive® Advantage

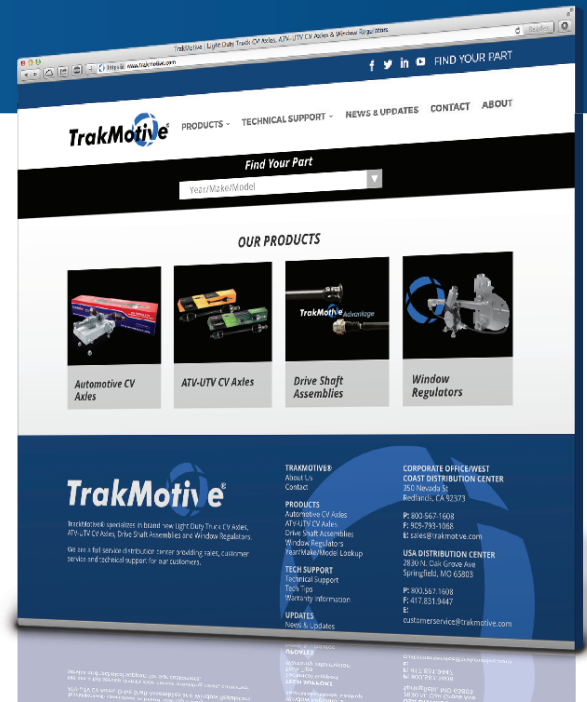

## TrakMotive Launches New Improved Interactive Website

TrakMotive has worked diligently over the past several months to add more usable tools to our website and we are pleased to announce that our all new interactive website is now up and running. We listened to your suggestions and have added more product information on each product line, sales support tools, tech tips and downloadable brochures.

The updated website is specifically designed to be compatible with today's tablets, i-pads, smart phones and other portable devices. In today's market, we understand your need for innovative sales and marketing tools, along with having quick access to key information. The updated website is more interactive and provides our customers & sales force with the most up-to-date information available.

We will continue to add information and make improvements as we build more tools. In the meantime, we welcome you to visit our site and feel free to make suggestions on additional information you would like to see added.

## New Enhancements Include:

- Prominent online catalog lookup feature includes detailed product specifications and images
- Educational product information, including videos
- Technical tip bulletins
- Detailed product pages for each product category
- Downloadable product flyers and tech bulletins
- Social Media Support Links
- More information is continuously being added!

**We invite you to visit our site and greatly appreciate your input!**
