

We are Obsessively Committed to True OE Quality, Performance & Leading Market Coverage

What Separates TrakMotive Quality from the Competition:

- TrakMotive manufacturers, monitors, and quality tests all product to meet or exceed OE specifications
- Maintain an extensive library of OE product samples in house - Over \$5 million invested
- Quality control testing is continuously performed throughout the manufacturing process to ensure all OE specifications and performance standards are maintained
- Design Improvements are made to the OE designs when flaws are found
- Maintain the Latest ISO & TS16949 Certifications

Continued Commitment to Market Leading Coverage:

Full line of Drive Shafts

- 78 New numbers added in December alone

Nearly 400 new CV axles added in the last year

- Industry leading coverage with well over 2,040 sku's

Complete Line of New Window Regulator Coverage

- Comprehensive coverage for domestic and import applications
- Providing more coverage with fewer sku's

Expanded ATV-UTV Axle Coverage

- 42 numbers recently added covering 486 fitment applications
