

Maximize Your CV Axle Sales Opportunities

HD Xtreme™

Long lasting performance designed specifically to handle the most extreme environments.

FEATURING:

- High strength **8-Ball Fixed Outer Joints** are engineered to reduce friction and wear characteristics for greater longevity and cooler operation which extends grease life
- Premium **Thermoplastic Boots** withstand exposure to extreme temperatures ranging from -58°F/50°C to +478°F/ 248°C and are designed for added protection against road debris and ice
- **Stainless Steel Stepless Clamps** provide improved clamping force on the TPE boot to create a tighter, more reliable 360° optimum seal even in the most extreme temperatures
- **Specially formulated 7023B Grease** is designed to resist loss of lubricity and maintain OE lubricant performance in even the most severe temperatures ranging from -40°F/C to +280°F/140°C

Now Available!

Xtended Travel™

The only C.V. Axle assembly in the aftermarket designed for lifted applications that offers a lifetime warranty against defect & workmanship.

FEATURING:

- Utilize a **Sliding Spline Center Shaft** that provides up to a full 40mm greater linear travel than OE, which allows for greater suspension travel for off-road and lifted applications
- Include high strength **8-Ball Fixed CV Inner & Outer Joints** that have 60% more operating angle on the inboard joint, eliminating joint failure from lift kits and increased ride height
- **Thermoplastic Boots** for added protection against rocks, and punctures when off-road, and high strength stainless steel clamps and increased corrosion resistance
