

## Exciting News: TrakMotive Announces New Manufacturing Facility in Vietnam

We are thrilled to share a significant milestone in TrakMotive's growth journey. Today, we announce the expansion of our global manufacturing footprint with a brand-new facility in Vietnam, set to commence operations in 2025. This marks our Phase 1 development in Vietnam, with Phase 2 set to break ground by year-end.

This strategic investment enhances our ability to meet growing demand while delivering the quality, reliability, and value you expect from TrakMotive. The new facility will strengthen our

manufacturing capabilities, improve lead times, and ensure greater supply chain efficiency and resiliency across our product lines.

As part of our forward-thinking approach, this expansion also positions us to maintain competitive pricing and ensure supply chain stability in an evolving global marketplace. Our focus remains steadfast on providing uninterrupted service and the trusted quality that has made TrakMotive an industry leader.

We are incredibly proud to share this milestone with you and look forward to the opportunities this brings for all of us.

Thank you for your continued trust and partnership.

Sincerely,

Robert Zhu  
CEO

**About AIT / TrakMotive:**

Advanced Innovative Technologies (AIT) is a leading manufacturer and supplier of high-quality automotive aftermarket solutions. Through our TrakMotive brand, we deliver industry-leading driveline and powertrain components engineered for durability, performance, and ease of installation. With a commitment to innovation, exceptional service, and continuous improvement, we empower our customers with reliable products that keep vehicles moving forward.
