### Engineered to the Highest Quality Standards In the Industry.

TrakMotive New Drive Shaft Assemblies are manufactured and engineered to the highest quality standards in the industry, ensuring they meet or exceed OEM specifications in fit, form and function. All TrakMotive Drive Shaft Assemblies are 100% brand new and manufactured in our state-of-the-art ISO 9001:2008 and TS 16949:2009 facility.

#### Key Benefits:

##### 1. TPE (Thermoplastic Elastomers) Dust Boots

**Benefit:** Provides better resistance to deformation, debris, oils, heat cycling and ozone compared to neoprene boots.

##### 2. Stainless Steel Clamps

**Benefit:** For added strength and increased corrosion resistance even in the most extreme temperatures.

##### 3. Durable Coating

**Benefit:** Premium coating protects shaft from premature corrosion.

##### 4. Low Friction Sliding Joints

**Benefit:** Special low friction sliding joint spline coating extends service life and eliminates movement that causes clunking noises.

##### 5. Premium U-Joints

**Benefit:** Premium forged 3 layer sealed construction provides maintenance free life and can handle higher torque loads. Cups are packed with premium lithium grease providing better lubrication and resistance to extreme temperatures.

\*Where Applicable

**100% Machine Balanced To Ensure Trouble Free Service Life From Vibration And Noise.**
