Exceeds OEM Quality, Fit and Function

TrakMotive New Premium CV Axles are manufactured and engineered to the highest quality standards in the industry, ensuring they meet or exceed OEM manufacturers specifications in fit, form and function. All TrakMotive New Premium CV Axles are 100% brand new and manufactured in our state-of-the-art ISO 9001:2015 and IATF 16949:2016 facility.

Component Upgrades

1. Precise ABS Compatibility

Benefit: Assembled with the correct ABS ring to ensure accurate fit and proper function.*

2. Durable Dust Protection

Benefit: Premium neoprene boots offer superior flexibility and long-lasting performance.

3. Enhanced Core Strength

Benefit: Heat-treated, precision-machined solid steel shafts improve performance and durability.

4. Reinforced Clamping

Benefit: Stainless steel band clamps resist deformation and stretching for a secure fit.

5. Extended Component Life

Benefit: Precision rolled splines and threads reduce wear for longer operational life.

6. Stability Under Acceleration

Benefit: OE hollow tube design minimizes torque steer during hard acceleration.*

7. Complete Installation Kit

Benefit: Includes all necessary hardware and grease for a hassle-free setup.*

*Where applicable OE.

Premium Features

Improved Socket Articulation

OE AAR socket design offers greater articulation and operating angles while reducing NVH (noise, vibration, and harshness).*

Reduced Spline Play

OE flat spline design eliminates spline play to minimize noise, vibration, and harshness.*

Performance & Longevity

Heat-treated, precision-machined cages, races, and bearings ensure reliable performance and longevity.

Enhanced Load Capacity

OE 8-ball socket design delivers superior strength and durability.*

*Where applicable OE.
